THE ROOSEVELT HOSPITAL

NEW YORK

Fifty-fourth Annual Report

From January 1, 1925 to December 31, 1925

Exclusive of Medical and Surgical Statistics

NEW YORK

THE ROOSEVELT HOSPITAL

Founded under will of James H. Roosevelt was incorporated by an act of the Legislature passed February 2nd, 1864. It occupies the block of ground between 58th and 59th Streets and 9th and 10th Avenues, and has erected thereon suitable buildings, which furnish accommodations for three hundred and seventy seven patients. It was opened for the treatment of medical and surgical patients November 2nd, 1871. The Ambulance Service was established in 1877 and discontinued in 1909. The Out-Patient (Dispensary) Department was added in 1881. The Gynaecological Division was separated from the Medical in 1888. The McLane Operating Room, the gift of Dr. James W. McLane, in memory of James W. McLane, Jr., for the use of the Gynaecological service was opened in 1890. The Wm. J. Syms Memorial Operating Theatre, was erected in 1892. The Private Patients' Pavilion was erected in 1896, and the Training School for Nurses was organized the same year. The Accident Building was erected

in 1898, providing in the first story for treatment of emergency and accident cases. A new Administration Office for the Superintendent was constructed and occupied in 1901.

In 1903 a Recreation Room for the use of the House Staff was constructed at the expense of Drs. Seth M. Milliken, Jr., and Fred'k. T. Van Beuren, Jr., members of the House Staff.

1906—A new kitchen department.

1908—A new laboratory building was constructed providing accommodation for pathological and bacteriological laboratories.

1911—A Nurses' Home containing 108 individual bedrooms, large assembly, reading and reception rooms with up-to-date appointments, was erected and equipped through the efforts of Dr. McLane. Through the generosity of Mr. Walter Scott, a large sun parlor was added to this building in 1916.

1912—A fireproof building was erected by Dr. Lewis Rutherford Morris for the use of the Harriman Research Laboratory, where special studies in metabolism and digestive ferments are being conducted by the chemists of that staff under the direction of Dr. Wm. Gordon Lyle.

1919—A new, commodious laundry.

1920—Nurses' Dining Room enlarged to nearly twice its size.

1921—New Private Patients' Admission Office.

1922-1923—The completion of a modern fireproof Ward Patients' Building accommodating 290 patients.

1924—A new Boiler Plant and Coal Vault.

1925—Alterations in Syms Operating Theatre. The establishment of a Central Sterilizing Plant.

New Nurses' Class Rooms.

Sick Nurses' Infirmary.

The Roosevelt Hospital aims to provide the best possible medical, surgical and gynaecological service to the sick poor of the City of New York. Also to provide the same service to those who can afford to pay for the service so that it will not be a drain on the charitable funds.

It is located in a district convenient to both the above named classes. Its usefulness is only limited by the amount of its funds, but it has never been willing to rely on popular subscriptions to provide the funds for its current expenses. By the aid of its many friends who have given generously both for special purposes and in addition to its endowment it has been enabled to expand and perfect its service. It was never in more need than at present of the aid of its friends. The addition of the new pavilion increasing the number of its ward beds and adding many additional scientific facilities for their treatment together with higher costs of living and nursing have largely increased the hospital operating deficit. In addition to the need of additional income, it is necessary that the hospital increase its facilities.

The most urgent need is an enlarged nurses' home to accommodate at least 150 nurses with increased facilities for teaching. In addition there are changes in the Syms Operating Theatre and other buildings costing probably \$100,000. which cannot be undertaken till the funds are provided. We hope our friends may help us in these matters.

W. EMLEN ROOSEVELT,

President.

The present capacity of the Hospital is 377 beds, assigned as follows :

	Beds
Ward 1, Reception	14
“ 2, Male Surgical, 1 Div. Service.....	39
“ 3, Male Surgical, 2 Div. Service.....	39
“ 4, Female Surgical Service	39

At a meeting of the Trustees of The Roosevelt Hospital held this day, the following report of the Superintendent was presented and ordered to be printed.

GEORGE E. ROOSEVELT,

Secretary.

REPORT OF THE SUPERINTENDENT

January 1st, 1926.

To the BOARD OF TRUSTEES:

Gentlemen:—I have the honor to present herewith the fifty-fourth annual report of the Hospital for the year ending December 31st, 1925.

PATIENTS TREATED There have been treated in all departments of the Hospital 37,415 persons—an increase of 813 over the previous year—13,581 in the Out-Patient Department, 17,864 in the Emergency Department and 5970 in the Wards and Private Rooms. The average number of patients in the Wards and Private Patients' Pavilion was 262, or 95,663 days bed care during the year. The average number of daily visits to the Emergency Department was 53 and to the Out-Patient Department 145.

FREE DAYS There were 4311 patients in the Wards—an increase of 346 over 1924 (1409 increase for the past two years) and of this number 2993 or 69½% were treated free. The number of free days' care given was 46,785 or 66% of the total 70,856 Ward days' care, an increase of 2808 Ward days care as contrasted with 1924 (a total number of 15,715 free days care for the past two years.)

The average length of stay of each Ward Patient was 16 days as against 17 days of the previous year and that of each Private Patient 15 days as against 14.

The cost per day to the Hospital for each Private Patient cared for was \$8.57 and \$4.71 for each Ward Patient.

The daily per capita covering all indoor patients of the Hospital increased from \$4.65 to \$5.61 this year.

The daily per capita cost for food for this year was 59.66 cents as against 50.8 cents the previous year. These figures represent the cost of food supplies before preparation.

The cost of provisions was \$156,450.87 as compared with \$125,143.82 in 1924, an increase of \$21,307.05.

The cost of maintaining the Hospital in 1925 was \$793,766.57 as compared with \$677,714.37 last year. An increase of \$116,052.20.

The operating receipts were \$634,457.86 as contrasted with \$635,072.59 in 1924, a decrease of \$614.73.

PATHOLOGICAL AND HARRIMAN LABORATORIES In connection with the laboratory, a new department of Basal Metabolism has been functioning successfully for the past year. A Department for Clinical Pathology in connection with the Out-Patient Department has been established.

The enzyme studies of various types of tumors and of normal tissues are being continued in collaboration with the Station for Experimental Evolution of the Carnegie Institution.

Very comprehensive studies of the influence of diet upon the growth of tumors experimentally has been carried out at the "Memorial Hospital" during the last year.

The therapeutic value of inorganic salts in the treatment of Cancer has also been investigated.

The clinical value of desiccated gonadal substances continues to be investigated, also their chemical properties.

A table showing examinations made for the year will be found on page 30.

X-RAY DEPARTMENT The new X-Ray Department has just completed its second year's operation. The following table indicates the number of Patients Radiographed and Films used in comparison with the previous year.

	Patients		Films Used in All Departments	
	1924	1925	1924	1925
Private Patients	448	580	5x7.....	391 798
Ward Patients	2848	4064	8x10.....	4879 6102
Out-Patient Dept.	1023	1126	10x12.....	3107 5237
Emergency Dept.	1041	1574	11x14.....	940 1281
Out-Patient (ambulatory).....	1169	1573	14x17.....	3315 5105
			Dental Sets	276
TOTAL	6529	8917		
				12,632 18,799

The appended table shows the increased volume of work done in the X-Ray Department as compared with the previous year. It will be observed that there has been an increase of 36.9% in the total number of patients. During the year a Cystoscopic Room with the newest X-Ray and cystoscopic apparatus at a cost of \$2,500.00 was donated to the hospital by Dr. J. Bentley Squier. This room is used by the Courtesy Staff of the hospital and is housed in the X-Ray Department. It is a distinct unit apart from the main Cystoscopic Room. The plan for teaching X-Ray Technicians has developed successfully during the past year, the Department keeping two student technicians constantly—these technicians are given a practical rather than a theoretical training. The photographic department has grown in usefulness, this division supplying the necessary photography, lantern slides and prints required by members of the Medical Staff.

SYMS OPERATING PAVILION With the opening of the new Ward Patients' Building in 1924 progress brought with it responsibility and obligation. The increased volume of operative and surgical work demanded greater facilities and consequently more room in the Operating suite of the Syms Pavilion. To adequately meet this expansion, the service rooms adjacent to the Operating Room had to be greatly enlarged, and a Central Sterilizing Plant was established in the basement of this building.

The rooms on the main floor that were enlarged and newly equipped are as follows:—

1. The Instrument and Utensil Sterilizer Room, consisting of 2 Utensil and 2 Instrument sterilizers, a water sterilizer combination with two 50 gallon tanks (one for hot and one for cold

sterile water) with a filter and a 10 gallon still for distilled water set between; also, a built in blanket warmer.

2. A large Utility Room.

3. One large Work Room, in which various supplies are made.

4. Also a new room built into the corridor, to which a patient is conveyed after operation and transferred from table to stretcher and properly wrapped in blankets before being returned to room or ward.

5. A new Scrub-up and Nurses' Dressing Room, with modern facilities, 12 steel lockers, scrub-up sink, lavatory, etc.

In the basement four large rooms appointed as follows:—

The Central Sterilizing Plant, where practically all the dressings and solutions of the hospital are being autoclaved, consists of 5 large dressing sterilizers, 2 rectangular and 3 circular in form; each is equipped with a sliding carriage and an extension track for carrying the articles to be sterilized in and out of the autoclave. The apparatus itself operates with a pressure of 60 pounds in the inside jacket and about 20 pounds in the sterilizing chamber. These sterilizers are built into the wall between two rooms; the head of the sterilizers, the doors, gauges and all necessary valves, only are visible in the main sterilizing room, while the remainder of the apparatus is enclosed in a separate room, behind the wall, where fresh air is taken in and all excessive heat is being drawn out of the room through a vent. The drums, sterile goods, etc., are sent to the operating room above by a newly installed electric elevator.

Adjacent to the sterilizing room are three rooms, one of which is used as a stock room for supplies—gauze, cotton, etc.—the second, a work room where all dressings and package goods are being prepared and drums are packed, ready to autoclave. The third room is the Solution Room, equipped with a salt mixing apparatus for the preparation of saline solutions; also a still with two 25-gallon capacity distilled water tanks. All of these changes, which were extremely necessary, were only a part of the original scheme of our reconstruction, and were carried out only as far as the funds in hand of our Trustees permitted. The uncompleted work of our program was necessarily postponed.

The Hospital has steadily grown in magnitude and influence and consequently in reputation; and to hold our position in the

front ranks, feel it incumbent upon us that we should proceed as early as possible with the enlargement of the Surgeons Scrub-up Room, shower, dressing and locker room and other needed betterment adequate to the requirements of the Hospital. It would be indeed gratifying if in the review of the current year's history, an announcement might be made of a gift, say of \$100,000.00 designated to provide this vital necessity.

OUT-PATIENT DEPARTMENT

During the year the Dispensary of the Hospital has undergone an entire physical change—the addition of new furniture, examining and operating tables, chairs, cabinets, lighting fixtures, a laboratory fully equipped, with an experienced laboratory man in charge who makes all minor tests and analyses without going to our Central Laboratory. A new history and card index filing system was inaugurated, and the appointment system adopted, with an increased personnel of four additional people, a closer liason was promoted between the Dispensary and the Wards all of which has brought our Dispensary up to a much higher standard and is operating with a greater degree of efficiency.

FRIENDS

Contributions of flowers, fruit, books, etc., were received from the following friends of the Hospital: Miss Susan Dwight Bliss, Mrs. James R. Jesup, Mrs. Harry Harkness Flagler, Mr. Thomas S. McLane, Mrs. Joseph B. Dickson, Mrs. William Hitt, Mr. John H. Abeel and the Colony Club.

Mrs. I. N. Landauer has continued her generosity to the Hospital in contributing funds which will largely defray costs of printing a revised edition of the Hospital Standard Procedures.

The Haven Relief Fund Society has continued its help in contributing five hundred dollars (\$500.00) for Home Welfare Work.

Mr. Charles W. Clark has given five hundred dollars (\$500.00) also for Welfare Work.

Miss Susan Dwight Bliss has very generously furnished ice cream and cones during the hot summer months for the children. Also flowers, books and numerous toys during the year and provided white enamel steel cabinets in which to store their playthings.

Mrs. Harry Harkness Flagler, and daughter, a monied contribution for Easter decorations and gifts for the children.

Miss Caroline A. Warner, Troy, New York (a former patient) funds with which to provide for the children a Valentine and ice cream parties.

Mrs. Henry Bernhard also bore the expense of giving all the children a table party—furnishing ice cream and pretty novelties.

Mrs. Joseph B. Dickson has met the expense of furnishing ice cream for all the ward patients twice weekly during the summer—also oranges, apples and bananas during the holidays and funds towards the children's Christmas.

The Church of the Incarnation, through their Employment Society have again been generous this year in assisting the Hospital with sewing and making Hospital garments.

A "Friend" distributed \$300.00 among needy families, recommended by the Home Welfare Bureau, at their homes at Christmas.

By the generosity of George Borgfeld and Company we were the recipients of two large cases of toys for Christmas which had made our little children very happy.

Col. Walter Scott, a large case of toys also for the children's Christmas.

For all this assistance grateful acknowledgment is hereby made.

MEMORIALS

The following memorials have been made during the year:

"The Hicks Memorial Ward." A memorial established in the Reception Ward of the Hospital in memory of John Haydock Hicks and Frances Sanderson Hicks, his wife, by their children.

"The Susan Livingston Kean Memorial" by her brothers and sisters was established in the Surgical Children's Playroom.

"The Theodore Roosevelt Memorial," for Hospital Endowment. Anonymous donations of \$35,000 were received last year (1924). This memorial was further increased during the year, with stated gifts amounting to \$14,000 and \$20,000 by anonymous contributions. It is the desire of the donors that this amount be placed amongst the restricted endowment funds of the Hospital for investment, the income to be used for general purposes of the Hospital and the fund to be known as the "Theodore Roosevelt Me-

morial," the names of the givers not to be mentioned. Additional gifts from other persons are solicited to increase the amount of this fund and the names of the givers of any additional amount will either be recorded or held as anonymous, as may be desired.

A legacy of Lucie A. Bliss of \$5,000.00 was received to endow a bed in the Children's Ward.

An endowment of a bed in memory of Isabel Watt Sells was received during the year.

EXPENSES Appended will be found a statement of the receipts (page) and expenses of the Hospital for the fiscal year.

The gross expenses at the Hospital for the year were.....	\$793,766.57	
From this amount should be deducted the sum paid the special nurses.....	\$194,827.00	
(which has been refunded by patients) and amount received from sale of supplies	10,248.26	
Also the estimated cost of operating the Out-Patient Department	38,506.20	
Emergency Department	14,003.10	257,584.56
Making the actual expense of maintaining the indoor patients and guests		\$536,182.01
or \$5.61 per day each.

Graduation Week was marked by a series of happy social affairs for the members of the Graduating Class and their friends. A dinner and dance at the Hotel Roosevelt, a theatre party and a class dance in the Nurses' Home were some of the events of the week. On the afternoon of Sunday, April 26th, the Reverend Dwight Witherspoon Wylie, D.D., delivered the Baccalaureate sermon to the Graduating Class in the Central Presbyterian Church. The beauty and the simplicity of the service was inspiring and made a deep impression upon those who were privileged to be present. The Graduation Exercises were held on the evening of April 28th, in the Syms Building. Mr. W. Emlen Roosevelt, the president of the Board of Trustees, presided. The address to the Graduating Class was made by Dr. Peter Irving and the school pins were presented by Mr. Thomas S. McLane. At the close of the formal exercises, refreshments and dancing were enjoyed by the nurses and their friends.

The past year has seen the opening of our fine new Class and Demonstration Rooms and a well-equipped Diet Kitchen for teaching purposes. This spacious addition to the Training School is a delightful improvement over the old order of things and means much to the comfort and well-being of instructors and students alike. Through the interest and activity of the graduates and students of the School, ably assisted by our generous friends, a successful Bazaar was held in December in order to raise funds to establish a Reference Library for the use of the nurses. The room which has been turned over to us for this purpose is now being remodelled and decorated, and we hope to have the library fully assembled and organized within a few months.

The urgent need of a larger Nurses' Home is our greatest problem at this time. Along with other necessary improvements, it is desirable that we adopt the eight-hour system in the Training School, but until adequate housing accommodations are assured, we are unable to increase the number of students required in order to put this change into effect. We earnestly hope that a satisfactory solution of this important matter may be reached in the near future.

We record with sorrow the death of Mrs. Leon De Yoe, nee Donaldso Arthur, Class 1910, died in December, 1925.

To the friends of the Training School who have made it possible for the nurses to enjoy music and the theatre we tender our sincere appreciation. We are most grateful to the members of the Attending Staff and the House Staff for their splendid co-operation in the Lecture Room and for their professional services in the Training School.

Respectfully submitted,

ISABEL DOUGLAS RICHMOND,

Directress of Nurses.

W. IRVING CLARK

The Board of Trustees of The Roosevelt Hospital desire to place on their minutes a record of their sorrow at the death on June 5th, 1925, of Mr. W. Irving Clark.

Mr. Clark was elected a Trustee of the Hospital on October 26th, 1886, and served continuously until his resignation in 1922. During that period he was at all times active in the management of the Hospital, acting as Secretary from 1887 until 1898, and as Vice-President from 1898 until the time of his resignation.

He gave to the affairs of the Hospital much of his time, thought and care during all these years, and to his wise counsel is due much of the success of the Hospital. He combined in an unusual degree clear judgment, high principle, and a courtesy that endeared him to his fellow Trustees and to all the officers and employees of the Hospital.

January 1st, 1926.

To the Board of Trustees :

Gentlemen: I have the honor to transmit the following reports containing the statistics of the work done on the several divisions of the Hospital during the year 1925:

The number of patients

Remaining in the Hospital December 31st, 1924.....	237	
Admitted during 1925.....	6,137	6,374

Discharged from the

Medical Division	1,832	
Surgical Division	3,502	
Gynaecological Division	806	
	6,140	
Remaining in Hospital December 31st, 1925.....	234	6,374

Operations performed during the year:

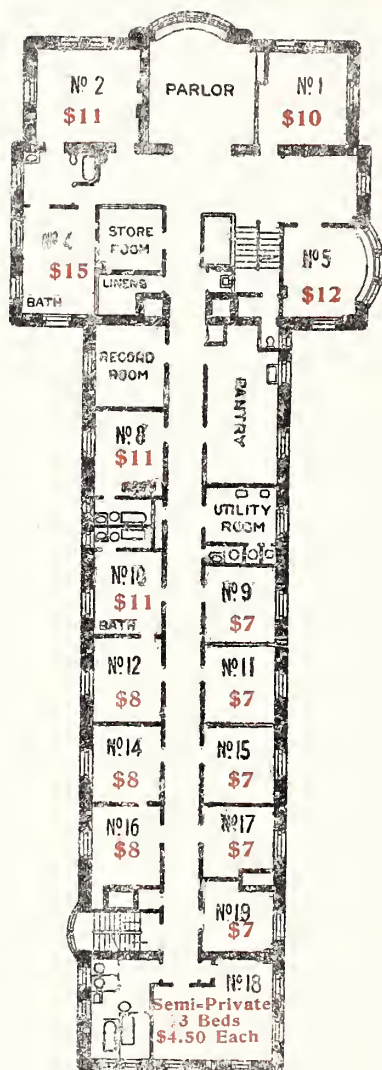

First Surgical Division	1,038	
Second " "	1,237	
Gynaecological "	670	2,945

Respectfully submitted,

KIRBY DWIGHT, M.D.,

Secretary Medical Board.

The detailed tabulated statistics are on file in the Record Room of the Hospital, and may be consulted by physicians interested in medical and surgical cases.

TYPICAL FLOOR PLAN OF PRIVATE ROOMS
WITH DAILY RATES

PRIVATE ROOM SERVICE

TERMS

Payment for account of private patients required for two weeks in advance.

If a patient leave before the expiration of the period paid for, a pro rata charge will be made for the time of stay; the day of admission and day of departure will each be charged as a full day, and the balance will be refunded. The charge for the room includes board, divided attention of nurse and ordinary medicines and dressings. A charge of \$20.00 will be made for use of the operating room and \$5.00 for routine laboratory work for all patients. Charges will also be made for X-Ray Exposures, Pathological Examinations, Druggist's Sundries, Serums, Proprietary Preparations, Toilet Articles, Bottled and Fruit Beverages, Bottled Waters, Water Bottles and Special Appliances.

Patients making direct application to the Hospital for rooms are received only as the patients of one of the Physicians or Surgeons privileged to use the private rooms; it is expected that they will pay to the member of the Visiting Staff, to whom they are assigned, a fee to be agreed upon with the Superintendent or with the Physician upon the occasion of his first visit.

Relatives or friends are not permitted to occupy the room with a patient, except in the case of parent and child, when \$5.00 daily will be added to the price of the room, which charge will include meals for the parent. If requested, the Hospital will engage for patients, for their exclusive use, a special (graduate) nurse, the rate for which will be \$8.50 for each twelve hours and her services will be continued until the Superintendent is notified that they are no longer required.

Valuables should be left with the Superintendent. Receipt will be given for them. The Hospital disclaims responsibility for valuables retained by patients.

Under a rule of the Trustees, "No member of the House Staff, nurse or other employee, shall receive any compensation, gift or bequest from any patient, unless authorized to do so by the Visiting Committee." Any infraction of this rule makes the employee liable to immediate dismissal.

All business details should be arranged with and checks should be drawn payable to the order of

GEO. W. M. STOCK,
Superintendent.

BUREAU OF HOME WELFARE

There have been interviewed in this Department 15,132 patients, of which 1,764 were cases for home care; 1,961 visits have been made to the homes of patients, and 314 visits to institutions. 173 patients were referred to other agencies, 299 were given convalescent care, and 321 ward cases were followed up to report end results.

This year through a "Friend" we were fortunate in giving a circus party to 50 children who were conveyed in buses to Madison Square Garden, and provided with ice cream and peanuts.

A party was given to 30 children by the Scully Walton Private Ambulance Company at the Hippodrome.

By the generosity of our friends it was made possible to distribute 51 Christmas dinners to needy families; Mr. Vincent Astor contributing 25 dinners; through Dr. Alexander T. Martin 25 dinners (also mittens, caps and toys for each child in those families); and Mrs. Hazel Stivers 1 dinner.

A friend whose name was not to be recorded distributed \$300.00 to poor families, the names of which were supplied by the Bureau.

Mr. Charles W. Clark contributed \$500.00 for use in connection with Welfare Work.

The Haven Relief Fund Society has again, as in former years, made its annual contribution of \$500.00 which was distributed by our Bureau in conformity with the aim and object of the Society, by affording relief to worthy families which have come under our care. A detailed report of the money disbursed was rendered to Mr. W. C. Moore, Secretary of the Society.

Clothing for use of some of our needy proteges has been given us during the year by the following friends:

The Needlework Guild of America, New York City branch.

Dr. James I. Russell

Miss Anna F. Campbell

Mrs. Sarah V. Dillon

Miss F. Pfeiffer

Miss Lulu Jean Hastings

Miss Anna Howland

- A pew reserved for the use of the Nurses by the Trustees of each of the following churches:
- Central Presbyterian Church.
- Calvary Baptist Church.

EXTRACTS FROM THE BY-LAWS.

I. The Admission of Patients.

1. Patients suffering from severe accidents or serious illness shall be admitted to the Hospital at any hour of the day or night.

2. Other patients shall be admitted between 9 o'clock a. m. and 5 o'clock p. m. They must apply in person at the office of the Hospital, when they will be examined and recommended for admission or rejection by the House Physician, Surgeon or Gynaecologist, or their Senior Assistants on duty; or, if unable to apply in person, they shall be visited at their homes by the House Physician, Surgeon or Gynaecologist on duty, or one of their assistants.

3. Any member of the Medical Board may send to the wards of the Hospital such patients as he sees fit, giving them a special order for admission, subject to the regulations of the Hospital.

4. No patient suffering from any contagious disease shall be admitted, except such cases of emergency as require immediate attention; and cases so admitted shall be placed in the isolating room only.

5. There shall be posted in the office daily the number of occupied beds in each ward.

6. Application for the admission of patients living out of the city must be addressed to the Superintendent of the Hospital and accompanied by a certificate of some respectable physician, stating the nature and probable duration of the disease.

7. If, in the opinion of the Superintendent, ability to pay exists, such charge as he deems advisable up to \$3 per day may be made for the ward patients' board.

II. Rules for Patients.

1. Patients admitted to the Hospital are forbidden to use profane or indecent language; to express immoral or infidel sentiments; to play at any game for money; to smoke tobacco in the house, or to procure for themselves or others any intoxicating liquors.

2. No patient shall be allowed to have any book, pamphlet or newspaper of an immoral or indecent nature.

3. No male patient shall go into any of the women's wards nor any female patient into any of the men's wards.

4. No patients shall enter the dead-house, engine-rooms, kitchen, theatre, or any of the attendant's rooms, except by order of the Superintendent or other officer of the house.

5. No patient shall leave the house without permission of the Superintendent. When desiring to go beyond the Hospital bounds, patients must obtain a card from the House Physician, Surgeon or Gynaecologist, at his morning round, stating that he has no objections, which card, when countersigned by the Superintendent, will serve them as a pass, and will be good for the day upon which it is given, but must be surrendered to the doorkeeper when the patient goes out.

6. Patients admitted to the Hospital must leave with the Superintendent for safekeeping, for which a receipt will be given, any money or other valuables they may have; and in case of their failure to do so, the Hospital will not be responsible for any loss which may occur. The clothing of patients will, if desired, be cared for, but no responsibility assumed for loss or damage. All clothing infested with vermin, or for any other reason deemed unfit to be kept here, will be destroyed on the admission of the wearer unless removed immediately by his or her relatives.

7. No patient may purchase, or solicit any attendant to purchase for him, any articles whatever without permission of the Superintendent.

No member of the House Staff, Nurse or other employee shall receive any compensation, gift or bequest from any patient, unless authorized to do so by the Visiting Committee. Any infraction of this rule makes the employee liable to immediate dismissal.

All complaints should be made to the Superintendent.

8. Patients are admitted only upon condition that they and their visitors comply with the rules, and failure to do so may necessitate their removal.

CHANGES.

To date (1926) in the members of the Board of Trustees and in the Officers of the Hospital since its organization; also in the Medical Staff.
